```java
1.   import javax.swing.*;
2.   public class text
3.   {
4.       text(){
5.           JFrame f= new JFrame();
6.           JTextArea area=new JTextArea("Welcome to javaProgrmming");
7.           area.setBounds(10,30, 200,200);
8.           f.add(area);
9.           f.setSize(300,300);
10.          f.setLayout(null);
11.          f.setVisible(true);
12.      }
13.  public static void main(String args[])
14.      {
15.      new text();
16.      }}
17.
```
